The following guidelines for remuneration to members of the executive management are applicable to remuneration agreed, and amendments to remuneration already agreed, after the adoption of the guidelines by the 2022 Annual General Meeting. The guidelines encompass remuneration to the Board of Directors, the CEO and the executive management, however, these guidelines do not apply to any remuneration decided or approved by the Annual General Meeting.

The Board of Directors shall be entitled to temporarily depart from these guidelines, in whole or in part, if special reasons justify doing so in an individual case and such deviation is necessary in order to meet the company's long-term interests or to ensure the company's financial viability. If such a departure occurs, it must be reported in the remuneration report before the next Annual General Meeting. The guidelines pertain to the period starting from the 2022 Annual General Meeting. Any issue regarding departure from the guidelines shall be prepared by the remuneration committee and decided by the Board of Directors.

The guidelines' promotion of the company's business strategy, long-term interest and sustainability

Mycronic is a global high-tech company that develops, manufactures and supplies market-leading production equipment with high requirements on precision and flexibility to the electronics industry. Mycronic has three priorities within the framework of the company's long-term strategy. These are: consolidating the company's strong position within the Pattern Generators division; increasing or retaining profitability in the High Flex, High Volume and Global Technologies divisions; and increasing the company's proximity to customers. The strategy also includes creating value through a focus on sustainability.

The Board of Directors considers that it is critical for the successful implementation of the company's business strategy and safeguarding of its long-term interests, that the company is able to recruit and retain members of the executive management with the competence and capacity to achieve specified

goals. To this end, the company must offer competitive remuneration to motivate the executive management. Short-term variable pay covered by these guidelines shall be based on criteria that aim at promoting the company's business strategy and long-term interests, and where the fulfillment of the criteria is determined by the method set out below.

Forms of remuneration, etc.

The remuneration and other terms of employment for members of the executive management shall be based on market terms. Total remuneration consists of base salary and variable pay, pension and other benefits. Long-term variable pay is excluded in the calculation of the total remuneration and the relative proportion of the remuneration components.

Fixed remuneration

In establishing the base salary for the CEO and members of the executive management, the scope and complexity of the position in question, as well as the individual's performance is taken into account. The executive managements' salaries are, like the other components of remuneration, subject to annual review by the Remuneration Committee, with the support of external salary statistics ensure that the salaries remain competitive. The base salary constitutes a maximum of 65 percent of total remuneration in the event of a maximum outcome of short-term variable pay.

Short-term variable remuneration

The remuneration is paid in accordance with goals achieved. The criteria, such as order intake or EBIT, are established in order to contribute to the company's business strategy, long-term interests and thus to the company's long-term value creation. The fulfillment of the criteria is determined through the company's audited annual accounts. Short-term variable pay can amount to a maximum of 110 percent of base salary and 55 percent of total remuneration. Variable pay shall not be pensionable, unless otherwise provided by mandatory law or obligations in applicable collective bargaining agreements. The outcome is prepared by the Remuneration Committee and approved by the Board of Directors in connection with the end of the qualification period and the remuneration is thereafter paid out. The company has no contractual right to recover the remuneration.

Long-term variable remuneration

Members of the executive management can be offered incentive programs, which mainly should be share or share price-related. An incentive program is intended to improve the participants' commitment to the company's development and shall be introduced on market-based terms.

Resolutions on share or share price-related incentive programs must be passed at an Annual General Meeting and are therefore not covered by these guidelines.

Other long-term remuneration

There are already existing agreements on long-term variable pay linked to continued employment for certain members of the executive management.

Benefits

Pension

Members of the executive management employed in Sweden after 2012 are covered by the contribution-defined plan under ITP1. Members of the executive management employed prior to 1 January 2022 have a supplementary contribution-defined pension plan in addition to the ITP plan. The retirement age for members of the executive management employed in Sweden is 65 years. For members of the executive management employed outside of Sweden, locally competitive pension plans and retirement ages are applied.

Other benefits

Other benefits e.g. car benefits and health care plans are established based on them being competitive in the local market.

Pension and other benefits constitute a maximum of 40 percent of total remuneration in the event of a maximum outcome of short-term variable pay.

Special adjustments

Regarding employment conditions that are governed by rules other than those applying in Sweden, appropriate adjustments may be made in order to comply with such mandatory rules or local practice, whereby the overall purpose of these guidelines shall be met.

Notice of termination and severance pay

The employment or contractual agreements of members of the executive management shall be valid until further notice or for a specified period of time.

For the CEO, in the event of termination by the company, a twelve months notice period and twelve months severance pay apply.

For members of the executive management employed in Sweden, the mutual notice period is a maximum of six months. Upon termination by the company, six months' severance pay also applies. During notice period, the current employment contract runs with associated benefits. In cases where severance pay would be paid, no other benefits will be paid after the expiry of the notice period. For other members of the executive management who are locally employed outside of Sweden, employment or contractual agreements shall comply with mandatory rules applicable in the relevant jurisdiction or local practice, entailing that e.g. other term of the employment (or term of contract as the case may be), other notice periods and other agreements on severance pay may be applicable in the individual case.

Salary and terms of employment

In preparing the Board of Directors' proposal for guidelines on remuneration to members of the executive management, the salaries and terms of employment for the company's other employees have been taken into account. Information about the executive managements' total remuneration, components of their remuneration, as well as increases in remuneration and rates of increase over time have been obtained and have constituted a part of the Remuneration Committee's and the Board of Directors' decision basis in their evaluation of the fairness of the guidelines and the limitations arising from them.

The resolution process

The Board of Directors shall prepare a proposal for new guidelines when there is a need for significant changes to the guidelines, however at least every four years. The Board of Directors' proposal is prepared by the Remuneration Committee. The Chairman of the Board of Directors may also be Chairman of the Remuneration Committee. In order to manage conflicts of interest, other members of the Remuneration Committee who are elected by the Annual General Meeting must be independent in relation to the company and members of the executive management.

The Remuneration Committee shall, inter alia, monitor and evaluate the application of the guidelines for remuneration to members of the executive management resolved by the Annual General Meeting. When the Remuneration Committee has prepared the proposal, it is submitted to the Board of Directors for decision. The CEO or other members of members of the executive management shall not be present while the Board of Directors addresses issues related to remuneration and passes resolutions about them, insofar as they are affected by the issues.

If the Annual General Meeting resolves not to adopt guidelines when there is a proposal for such, the Board of Directors shall submit a new proposal no later than at the next Annual General Meeting. In such cases, remuneration shall be paid in accordance with the current guidelines or, if no guidelines exist, in accordance with the company's practice.

External advisors are used in the preparation of these matters when deemed necessary.

Review of the guidelines

The guidelines for remuneration to members of the executive management were reviewed ahead of the 2022 Annual General Meeting, and did not result in any adjustments.

Item 16: Proposal regarding composition of nomination committee

The nomination committee proposes that a new nomination committee for the 2023 Annual General Meeting is appointed by the Chairman of the Board – at the latest by the end of the third quarter of 2022 – contacting the three largest or otherwise known shareholders per 31 August, 2022. The term of office shall run until a new nomination committee commences its service.

The composition of the nomination committee shall be published no later than six months before the company's Annual General Meeting.

The responsibility of the nomination committee regarding the 2023 Annual General Meeting includes proposing (i) chairman of the meeting, (ii) the number of Board members, (iii) election of members of the Board and Chairman of the Board and remuneration to Board members and the Chairman of the Board and remuneration to members of Board committees, (iv) election of auditor and remuneration to auditor and (v) the process for appointment of a new nomination committee.

The nomination committee proposes that the Annual General Meeting decides that the instruction to the nomination committee shall be the same as last year.

Item 17: The Board of Directors' proposal on authorization of the Board of Directors to resolve to issue new shares

The Board of Directors proposes that the Annual General Meeting authorizes the Board of Directors up until the end of the 2023 Annual General Meeting, on one or several occasions, to resolve to issue new shares, with deviation from the shareholders' preferential rights. Shares may be paid in kind, through set-off or with other conditions set forth in Chapter 13, Section 5, first paragraph item 6 in the Swedish Companies Act. The Board of Directors may otherwise set the terms of such share issuance. The authorization shall however not comprise a right for the Board to issue shares against cash payment and with deviation from the shareholders' preferential rights. The issue price shall be determined on marketable grounds and the number of issued shares may not exceed ten percent of the total amount of outstanding shares in the company per the day of this notice.

The reason for the deviation from the shareholders' preferential rights and the right to decide on payment through set-off, in kind or other condition as set forth in the Swedish Companies Act is to enable the company to issue shares in order to acquire shares, business or product rights.

Majority requirements

A valid resolution under item 17 above requires that shareholders representing not less than two-thirds (2/3) of the votes cast as well as the shares represented at the Annual General Meeting approve the resolution.

Item 18: The Board of Directors' proposal on authorization of the Board of Directors to resolve for the company to acquire the company's own shares

The Board of Directors shall be authorized, during the period until the next Annual General Meeting, to decide to acquire the company's own shares in accordance with the following.

1. Acquisition may only be made by a maximum of so many shares that, at any given time, the company's own holdings do not exceed five percent of all shares in the company
2. Acquisition of shares in the company may only be made on Nasdaq Stockholm (the "Exchange")

3. Acquisition of shares on the Exchange may only take place at a price within the price range recorded on the Exchange at any given time
4. The payment for the shares shall be paid in cash
5. The authorization may be used on one or several occasions up until the end of the 2023 Annual General Meeting

The purpose of the above authorizations to acquire shares is to enable delivery of shares to participants in LTIP 2022 (the introduction of a new long term incentive program, LTIP 2022, is subject to a separate resolution in item 19 in the notice for the 2022 Annual General Meeting) and to be able to continuously adjust the company's capital structure to the company's capital requirements.

Shares that have been acquired by the company and which have not been reserved in order to secure the company's delivery of shares under LTIP 2022 are intended to be canceled following a resolution thereof at the 2023 Annual General Meeting.

Majority requirements

A valid resolution under item 18 above requires that shareholders representing not less than two-thirds (2/3) of the votes cast as well as the shares represented at the Annual General Meeting approve the resolution.

Item 19: The Board of Directors' proposal regarding Long Term Incentive Program 2022 (LTIP 2022)

Mycronic's Board of Directors proposes that the Annual General Meeting passes a resolution on the implementation of a Long Term Incentive Program 2022 (LTIP 2022). This proposal is divided into four items:

- A. Terms of LTIP 2022
- B. Transfer of the company's own shares under LTIP 2022 and hedging activities
- C. Hedging of LTIP 2022 via an equity swap agreement with a third party
- D. Other matters related to LTIP 2022

A. Terms of LTIP 2022

A.1 Introduction

The Board wishes to establish a long-term incentive program for certain key employees in order to encourage personal long-term ownership of Mycronic shares as well as to increase and enhance its ability to recruit, retain and motivate employees. The Board therefore proposes that the Annual General Meeting resolves to implement a long-term performance share program 2022 ("LTIP 2022"). The intention is also to use LTIP 2021 to unite the interest of the employees with the interests of shareholders.

Participants may, after a qualifying period, receive allotments of Mycronic ordinary shares without consideration. The number of allotted shares will depend on the fulfilment of certain performance targets. The term of LTIP 2022 is more than three years.

A.2 Basic features of LTIP 2022

The LTIP 2022 will be directed towards certain key employees in the Mycronic Group. The participants are based in Sweden and other countries where the Mycronic Group is active. Each participant may be entitled, after a certain qualification period (defined below), provided continued employment during the entire period (except from "Good Leavers"), and depending on the fulfilment of certain performance targets linked to Mycronic's Earnings Per Share ("EPS"), to receive allotment of Mycronic

shares ("Performance Shares"). The participant shall not pay any consideration for the allotted Performance Shares. Performance Shares are Mycronic ordinary shares.

A.3 Participation in LTIP 2022

LTIP 2022 is directed towards a maximum of 70 employees, divided in three categories of participants:

Category	Maximum number of shares per person
A) CEO (maximum 1 person)	8 900
B) Management Group (maximum 10 persons)	3 400
C) Other key employees (maximum 59 persons)	1 400

Any resolution on participation or implementation of LTIP 2022 shall be conditional on that it, in the Board's judgement, can be offered with reasonable administrative costs and financial effects.

A.4 Allotment of Performance Shares

Allotment of Performance Shares within LTIP 2022 will be made during a limited period of time following the Annual General Meeting 2025. The period up to this date is referred to as the qualification period (vesting period). A condition for the participant to receive allotment of Performance Shares is that the participant remains an employee of the Mycronic Group during the full qualification period up until allotment. Allotment of Performance Shares also requires that the EPS performance targets are fulfilled. The Board shall establish a customary definition of Good Leavers and determine whether any allocation shall be made to participants who are considered Good Leavers.

The performance target is Mycronic's EPS and the performance target shall be established by the Board. Partial fulfilment of the performance targets will result in partial allotment of Performance Shares. Performance under a certain level will result in no allotment. The EPS targets and the outcome will be communicated to the shareholders after the allotment of Performance Shares to participants.

Prior to the allotment of Performance Shares, the Board shall assess whether the allotment is reasonable in relation to the company's financial results, position and performance, as well as other factors.

If significant changes take place within the Mycronic Group, or on the market, which, by the assessment of the Board, would mean that the terms for allocation/transfer of shares according to LTIP 2022 is no longer reasonable, the Board shall have the right to implement an adjustment to LTIP 2022, including, among others, the right to reduce the number of Performance Shares allocated/transferred, or not to allocate/transfer Performance Shares at all.

A.5 Implementation and administration etcetera

The Board, with the assistance of the remuneration committee, shall in accordance with the resolutions by the Annual General Meeting set forth herein be responsible for the detailed design and implementation of LTIP 2022. The Board may also decide on the implementation of an alternative cash based incentive for participants in countries where the allotment of Performance Shares is not appropriate, as well as if otherwise considered appropriate. Such alternative incentive shall to the extent practically possible be designed to correspond to the terms of LTIP 2022.

The intention is that the Board shall launch LTIP 2022 as soon as practically possible after the Annual General Meeting.

In the event that the general meeting does not resolve in accordance with item B with the required majority, the Company shall hedge itself against the financial exposure that LTIP 2022 is expected to entail, by the company entering into a share swap agreement with a third party in accordance with what is stated in item C below.

B. Transfer of the company's own shares under LTIP 2022 and hedging activities.

B1. Number of shares

The Board proposes that the Annual General Meeting resolves that transfer of up to 125 500 Mycronic shares under LTIP 2022 may be made in accordance with the below. The number of shares is calculated on the basis of maximum participation and maximum fulfilment of performance requirements.

B2. Other conditions for transfer of Mycronic shares

Mycronic shares may be transferred to the participants in LTIP 2022.

Share transfers to participants in LTIP 2022 shall be made without the participants paying consideration and shall be carried out at the time and subject to the other conditions under which participants in LTIP 2022 have the right to be allotted shares.

The number of Mycronic shares that might be transferred under LTIP 2022 shall be subject to customary re-calculation principles and may, consequently, be subject to re-calculation due to a bonus issue, share split, dividends and/or other similar events. Resolutions resolved upon by the Annual General Meeting 2022 shall not be included in a re-calculation of the number of shares.

B.3 Grounds for the Board's proposal and alternative hedging via an equity swap agreement with a third party etcetera

Since the Board believes that the most cost efficient and flexible method to transfer Mycronic shares under LTIP 2022 is obtained through transfer of own shares, the Board proposes that transfers are secured as described above in this item B. Should the necessary majority not be obtained for the proposal in item B, the Board will enter into a share swap agreement, in accordance with item C below.

Share swap agreement will also be relevant should this be more appropriate, for example due to the fact that the acquisition of own shares cannot be made to the extent required to be able to transfer shares under LTIP 2022.

The reason for the deviation from the shareholders' pre-emption rights to acquire the own shares is that the company shall be able to secure the delivery of shares under LTIP 2022.

C. Hedge of LTIP 2022 via an equity swap agreement with a third party

In the event that the necessary majority is not obtained for item B above, the company will hedge itself against the financial exposure that LTIP 2022 is expected to entail, by the company entering into a share swap agreement with a third party, whereby the third party in its own name shall acquire and transfer shares in the company under LTIP 2022. The relevant number of shares shall correspond to the number of shares proposed under item B above. The cost of hedging by entering into an equity swap agreement, excluding any dividends and without regard to the development of Mycronic's share price, exceeds SEK 1 million during the term of the program.

D. Other matters in relation to LTIP 2022

D.1 Majority requirements etc.

The resolution according to item A above shall require a majority of more than half of the votes cast at the Annual General Meeting. A valid resolution under item B above requires that shareholders representing not less than nine-tenths of the votes cast as well as the shares represented at the Annual General Meeting approve the resolution.

D.2 Estimated costs, expenses and financial effects of LTIP 2022

LTIP 2022 will be accounted for in accordance with "IFRS 2 – Share-based payments". IFRS 2 stipulates that the share awards should be expensed as personnel costs over the qualification period

and will be accounted for directly against equity. Personnel costs in accordance with IFRS 2 do not affect the company's cash flow. Social security contributions will be recognized as an expense in the income statement through regular provisions in accordance with generally accepted accounting principles. The amount of these regular provisions will be revalued in line with the trend in the value of the right to Performance Shares, and the contributions payable on the allotment of Performance Shares.

Assuming a share price at the time of implementation of SEK 178, and that the performance targets are achieved so that 50 percent of the maximum number of Performance Shares vest, including a share price increase of 50 percent during the qualification period and an annual employee turnover of 5 percent, the total cost for LTIP 2022, including social security costs, is estimated to SEK 14.1 million before tax, corresponding to an estimated annual cost of SEK 4.7 million before tax.

Assuming that the performance targets are achieved so that 100 percent of the maximum number of Performance Shares vest, and otherwise the same assumptions as above, the total cost for LTIP 2022, including social security costs, is estimated to SEK 28.2 million before tax, corresponding to an estimated annual cost of SEK 9.4 million before tax.

LTIP 2022 will comprise maximum 125 500 shares in total, which corresponds to 0.13 percent of the total outstanding shares and votes in the company on a fully diluted basis.

The above calculations are based on a decision on hedging in accordance with item B.

In the view of the Board, the positive effects expected to arise from LTIP 2022, outweigh the costs associated with LTIP 2022.

D.3 The Board's explanatory statement

An individual long-term ownership commitment among the participants in LTIP 2022 is expected to stimulate greater interest and motivation in the company's business operations, results and strategy. Moreover, the Board wishes to increase the ability of Mycronic to retain important key employees. The Board believes that the implementation of LTIP 2022 will benefit Mycronic and its shareholders. LTIP 2022 will provide a competitive and motivation-improving incentive for executives and other key employees within the Group.

LTIP 2022 has been designed to reward the participants for increased shareholder value by allotting shares, based on the fulfilment of conditions in respect of results and operations. By linking the employees' remuneration to the development of Mycronic's results and value, the long-term value growth of Mycronic is rewarded. Based on these circumstances, the Board considers that the implementation of LTIP 2022 will have a positive effect on the Mycronic Group's continued development, and will therefore be beneficial to the shareholders and Mycronic.

D.4 Other share-related incentive programs

The company's share-related incentive programs are described on pages 49-51 in the company's annual report.

D.5 Adjustment Authorization
